

STAGE FLASH

| | | | |
|-------------------------|----------------------------|------------------|-----------------|
| Date: | 2017-02-10 | Flash No: | 6 |
| Day: | Friday | Distance: | 21,26 km |
| Special Stage: | SS 6 Hof-Finnskog 2 | | |
| Weather: | Overcast. -4° C | | |
| Road Conditions: | Ice/snow | | |

1 - Sebastien OGIER / Julien INGRASSIA

"I cannot do anything. I'm trying but it's undriveable after the historic cars. Of course tomorrow I will have a better road position, but I need to keep myself in a good place tonight."

10 - Jari-Matti LATVALA / Miikka ANTTILA

"You have ruts but it's very difficult to keep the rear in them. You have to be very, very precise. I feel quite good with the car. I think the drivers behind will benefit from a wider line - we'll see."

2 - Ott TANAK / Martin JARVEOJA

"I'm not fully happy. There is a lot of fresh snow on the top here, it's very slippery. Also I made a few mistakes - went wide in a few places."

6 - Dani SORDO / Marc MARTI

"There is a lot of snow now and I can't get the feeling. There's grip in the lines, but nothing outside. I can't keep the car in the lines and that's affecting my confidence."

8 - Craig BREEN / Scott MARTIN

"I had a spin and I went into a snow bank. I have completely, completely lost my confidence."

3 - Elfyn EVANS / Daniel BARRITT

"Quite a lot of loose snow in here but not as extreme as the previous stage. Quite changeable grip."

15 - Stéphane LEFEBVRE / Gabin MOREAU

"I make progress and I'm very happy. My first time here in a World Rally Car."

5 - Thierry NEUVILLE / Nicolas GILSOUL

"It's good. I tried to drive so efficiently here to stay in the line. Push harder and you get out of the grip."

7 - Kris MEEKE / Paul NAGLE

"It's snowing now, okay not heavily, but it's covering the ground and it's hard to see the lines. When it's like this there is no advantage to running further down the order."

4 - Hayden PADDON / John KENNARD

"A big improvement over the morning. The car is not driving me anymore, I'm driving it. I need to use the brakes less - more on the right pedal."

14 - Mads OSTBERG / Ola FLOENE

"It's horrible without the rear wing. The car is designed to have it, and without it it's the worst handling car."

31 - Teemu SUNINEN / Mikko MARKKULA

"Good. I could drive a few seconds faster - or even more. Much better than the first pass."

32 - Pontus TIDEMAND / Jonas ANDERSSON

"We need to keep going. It still feels like the beginning of the rally. Stage by stage."

34 - Ole Christian VEIBY / Stig Rune SKJÆRMOEN

"Quite good but not perfect. Some loose snow outside the tracks but it feels good."

COMMENTS
