## **1. WELCOME AND INTRODUCTION**

### **Welcome to the 69th edition of Rally Sweden!**

**The rally will take place 11 - 14 February in the region of Värmland and Dalarna. Like previous years a visit to the neighbouring country Norway will be made.**

#### **Covid-19**

We are in the middle of a global pandemic, and there are bound to be restrictions and challenges to consider moving forward.

Along with the involved local, county and regional authorities in Värmland and Dalarna, we're aiming to draw up an action plan that will make sure we can host the event as usual - with special adaptations for the COVID-19 situation.

We will of course be monitoring developments with the pandemic, both at home and abroad, and adapting to the latest restrictions and regulations.

We will publish further information on [www.rallysweden.com](http://www.rallysweden.com).

#### **Locations**

The service park as well as the overnight parc ferme and the Media Centre will be at the airport in Torsby. Rally HQ is based at Hotel Selma Spa in Sunne, app 35 km south from the Service Park in Torsby.

After the shakedown stage on Thursday morning 11th February, the start of the rally and SSS1 will take place in Karlstad on Thursday evening.

Friday morning the rally will go north into Dalarna and new stages around Lima. We get refuelling and tire fitting zone in Malung during this day. At the evening we go back to Hagfors for a new version of stage Hagfors before first run of Torsby Sprint.

## **RALLY SWEDEN ENVIRONMENTAL POLICY**

**As one of Sweden's largest spectator event, Rally Sweden shall be a leader and good example in environmental work both nationally and internationally. We will profile Rally Sweden as an organizer that puts the environment in all areas all year round, even if the rally takes place in the winter. We want the entire organization to be engaged in environmental work and that each employee and marshal takes environmental considerations into the decisions taken. Successively Rally Sweden through conscious choice will work for the environmental impact to be reduced and we will:**

- **Commit to continuously improve our environmental work.**
- **Define clear goals and frameworks for our environmental work.**
- **Educate and inform as many people as possible both within the organisation and externally of our environmental policy.**
- **Comply with relevant environmental laws and regulations, and other environmental requirements as well as the FIA Institute Environmental Certification Framework.**
- **Strengthen our focus on specific aspects of our environmental work regularly through structured and planned work within:**
  - **Seeking cooperation and knowledge exchange with environmental operators to ensure high level quality of our environmental work.**
  - **Observing environmental work and environmental impact when we choose partners and suppliers and strive to choose products and services with proven good environmental performance.**
  - **Seeking to limit our transports' environmental impact as much as possible.**
  - **Saving energy and use renewable energy sources where possible, minimize waste, recycle and energy recycle.**

### ***FIA Environment accreditation***

*Rally Sweden has become the first motor sport event in the world to achieve accreditation from the FIA Institute's environment programme. The framework forms part of a broader initiative between the FIA and the FIA Institute aimed at evaluating and reducing the environmental impact of motor sport.*

*One important factor is the number of print-outs made from various documents. Rally Guide 1 and 2 as well as the Supplementary Regulations will only be published on the event website.*

*We would appreciate all competitors joining us for this management by informing us early the number of Road Books they need (should be less than the regulatory package), so we do not end up throwing a lot of unused materials to recycling.*

## **19. MEDICAL AND SAFETY SERVICE**

Medical information for Sweden and Norway

Citizens from the EU/EEA - countries are entitled to health and medical care on the same financial terms applicable to Swedish and Norwegian and citizens. However, you will need to show your European Health Insurance Card (EHIC) verifying that the person is covered by health insurance, when medical care is required, and should obtain this form before leaving their home country.

In some cases, prior authorisation or additional health insurance is required before seeking medical care in Sweden and Norway. The National Social Security Agency in the country where you are covered by social security insurance can advise whether prior authorisation or additional health insurance is necessary in your case.

The EHIC does not entitle you to compensation for travel home, e.g. on an ambulance plane. It is therefore important that you have private travel insurance.

Citizens from the Nordic countries are not required to provide the European Health Insurance Card.

Citizens in other countries than mentioned above have to pay the total cost of treatment plus the patient charge. In these case it is recommended that you have a private health insurance/travel insurance.
