FIA ENVIRONMENT ACCREDITATION

Rally Sweden was one of the first motor sports events in the world to achieve the accreditation "Achievement of Excellence" from the FIA Institute's environment programme. During 2022 Rally Sweden achieved Three stars, the highest level, in the FIA's environmental accreditation framework. Rally Sweden has thus received and maintained an important quality receipt for its environmental and climate work.

Rally Sweden have taken several important steps towards the vision of zero emissions, Rally Towards Zero. Extensive use of fixed electricity from renewable and locally produced sources, along with improved opportunities for visitors to get to the arenas by public transport, and cooperation with several environmentally certified key suppliers, are some of the environmental advances.

One factor is the number of printouts made from various documents. Rally Guide 1 and 2 as well as the Supplementary Regulations will only be published on the event website.

We would appreciate all competitors joining us for this management by informing us early the number of Road Books needed (should be less than the regulatory package), so we do not end up throwing a lot of unused documents to recycling.

RALLY SWEDEN ENVIRONMENTAL POLICY

Rally Sweden wants to be the world's most sustainable rally – both economically, socially, and environmentally.

Our mission is to be driving and inspiring, towards both other global motor events and the event world in general. We do this by:

- Adhering to applicable legislation
- Protecting the environment, for example:
 - Phasing out fossil materials & plastics
 - Accelerating the transition to fossil-free fuels and renewable electricity
 - Reducing waste
 - Decreasing emissions associated with the event
 - Promoting biodiversity
- Consistently creating a strong, engaging, and sustainable experience for the audience
- Being an attractive partner for companies aiming to drive development and influence the world towards new, more sustainable solutions.

The vision is a carbon-neutral Rally Sweden, and we call it "Rally Towards Zero." To achieve this, we work with three focus areas:

- Zero fossil materials and plastic
- Zero fossil fuels and emissions
- Zero waste left in nature

In relation to the audience, the concept "Leave nothing or no one behind" is communicated, aiming to encourage responsibility for both personal and others' safety, as well as leaving nature in the same condition as before the event.

1. WELCOME AND INTRODUCTION

It is our honour to welcome you to Sweden and the 73rd edition of Rally Sweden!

The rally will take place 12th – 15th of February 2026 in the region of Västerbotten in the north of Sweden. Our fourth time in Umeå and we are looking forward to some proper snow stages.

Locations

The HQ, Media Centre and Service Park will be located at the Nolia Exhibition and Sports arena, in central Umeå.

Umeå's distinctive strengths, in addition to a stable winter climate, are good hotel capacity in combination with Service Park and HQ at the Nolia exhibition and sports area, strongly growing business community and an attractive catchment area in terms of audience.

Route

The total length of the route is 1059,38km and the special stage length is 300,10km. The rally has 35,3% new stages in the itinerary.

After the shakedown stage on Thursday morning 12th February, the start of the rally will be in the evening at the Red Barn Arena podium in Umeå followed by the first stage, Umeå.

Welcome to a magic winter rally week in Sweden!
